Major Projects

These are the projects that are most carefully crafted.

● Everyday

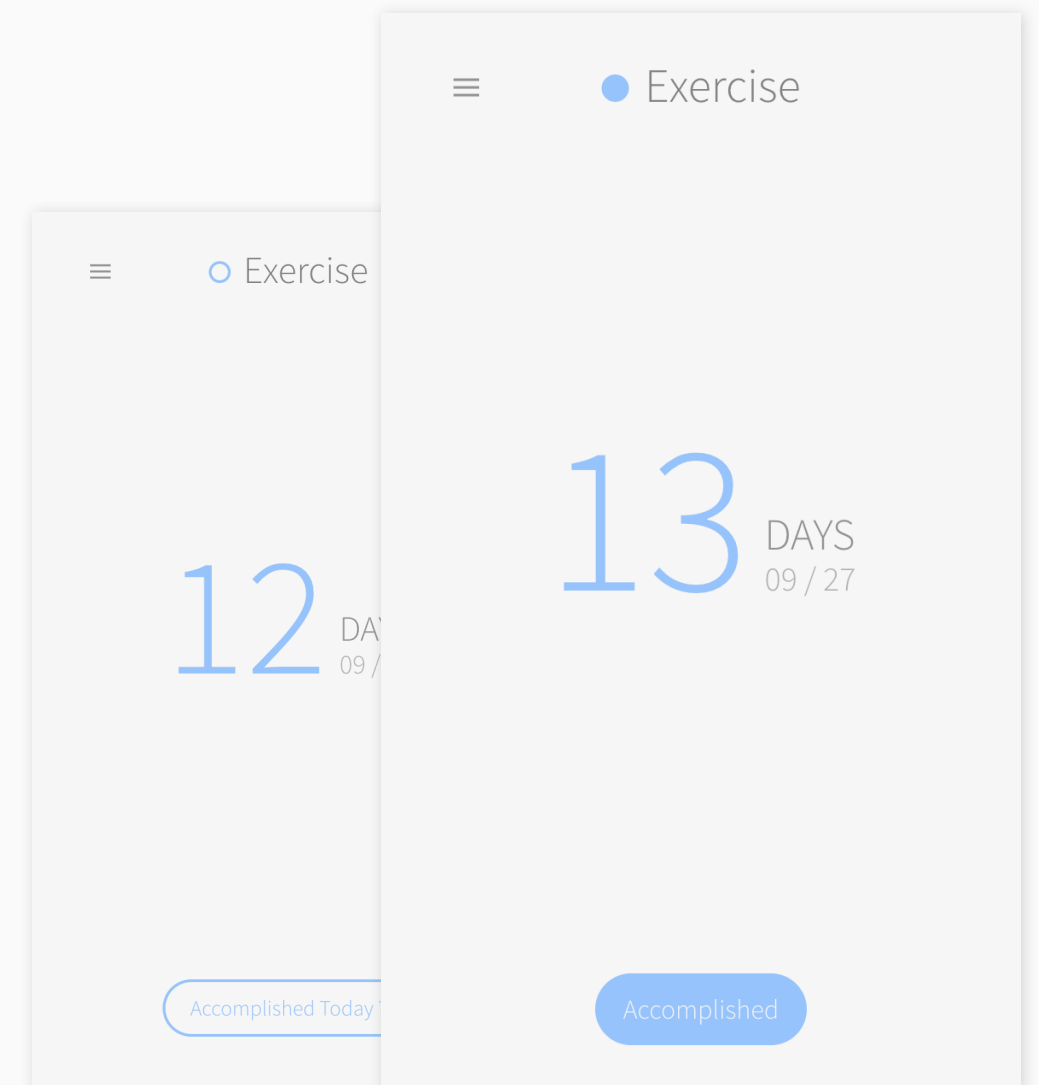

Everyday is an app which helps people track on their habits.

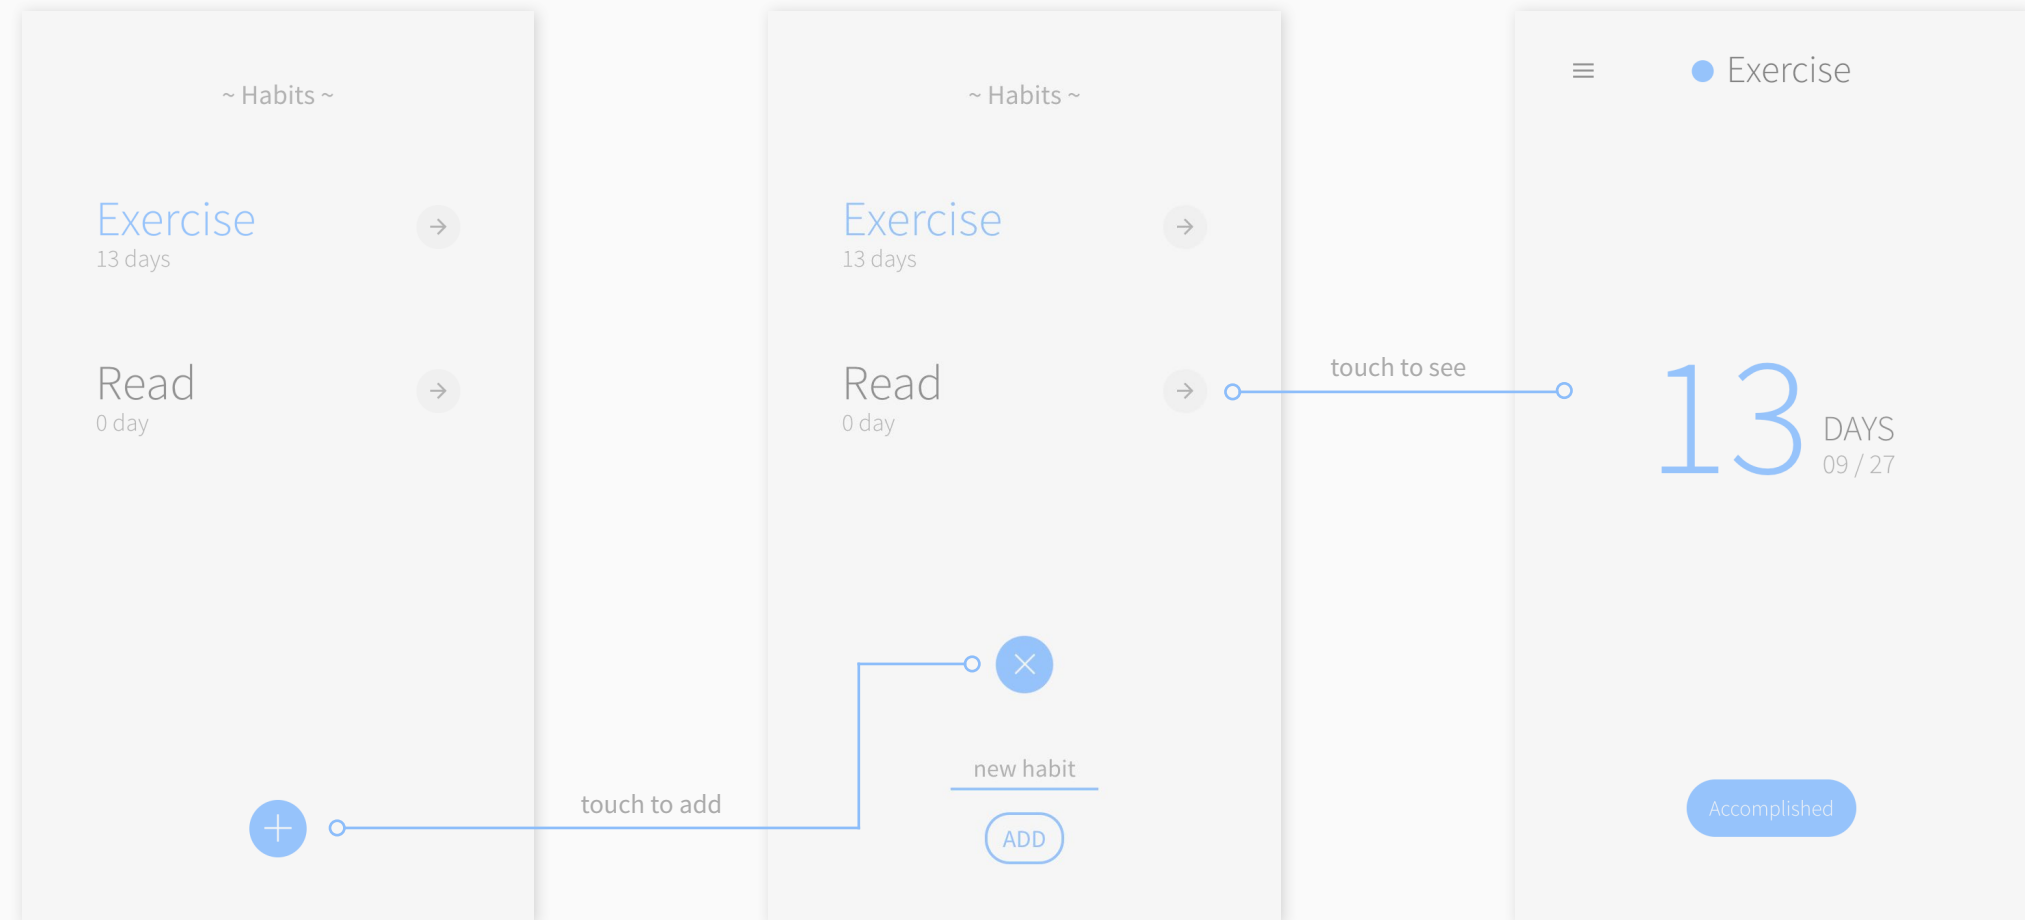

● Main Screen

shows the streak of your habit

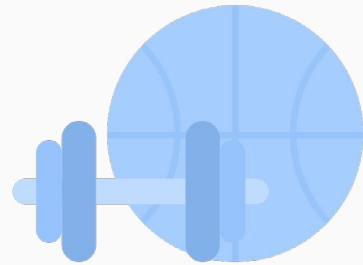

● List

you can track up
to 3 habits

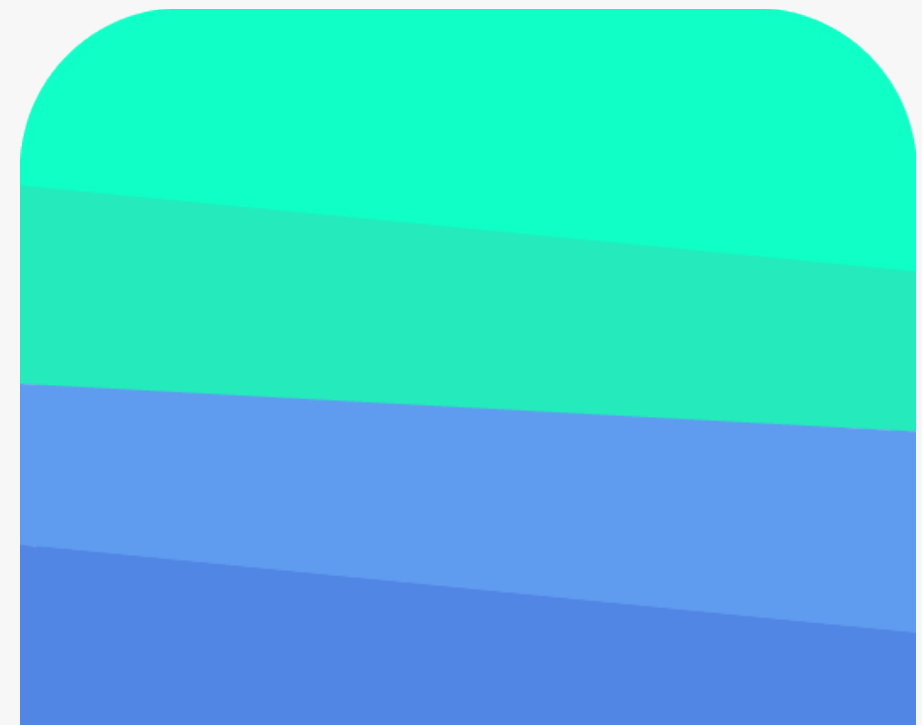

- Why

There was a period that I failed to keep doing workout everyday, and I really couldn't stand those habit-forming apps which are really heavy and redundant. So I built this.

INSPIVATION

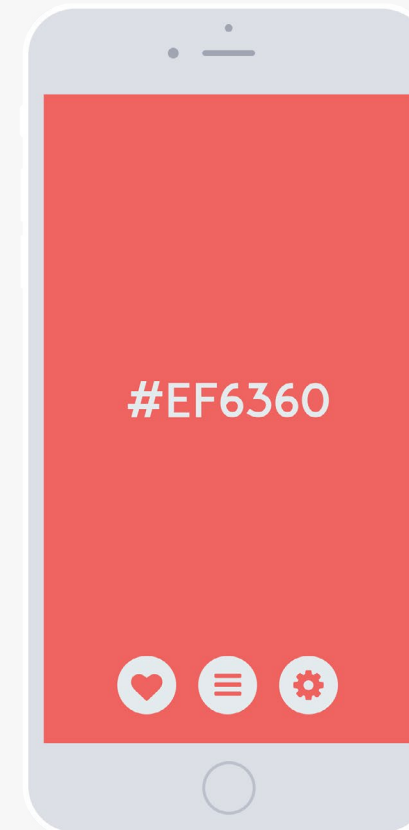

Random color generator

WHY

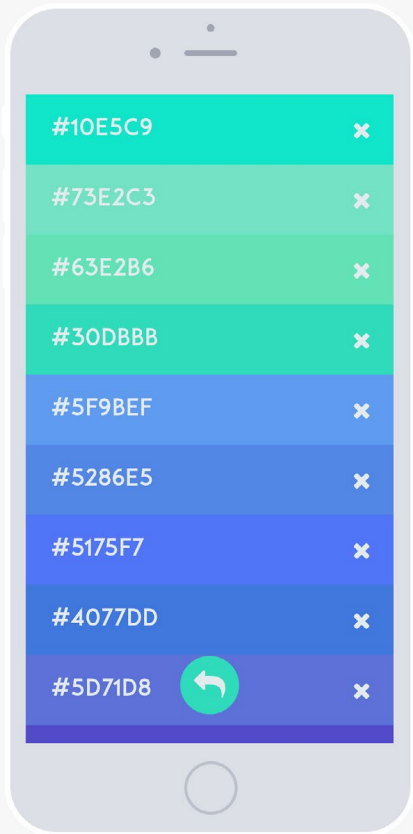

I was terrible at using colors. So I built a tool that could help me grow a deeper understanding about color.

MAIN SCREEN

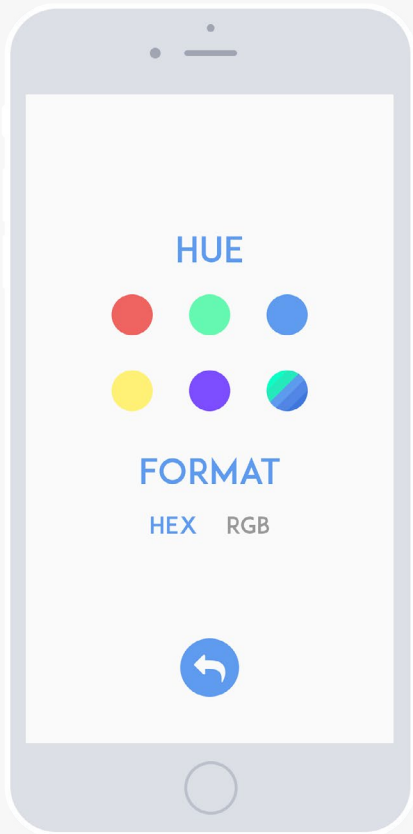

Shows the current color value. You can hit the heart to add the color to your collection.

LIST

Collect your favourite colors.

SETTING

Configure the hue of randomization and the format

BANG

WHAT

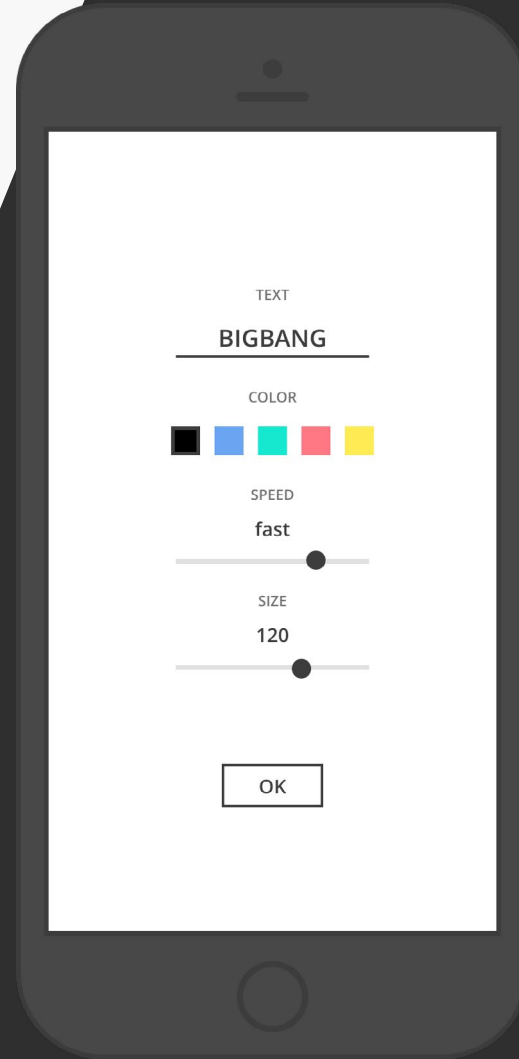

Flashing Text.

WHY

Abby is a big fan of Bigbang. So in a concert, maybe she can get noticed by G-Dragon through this app.

SETTING

You can configure the text, color speed and text size of the flashing.

COLORS

Supports multiple colors.

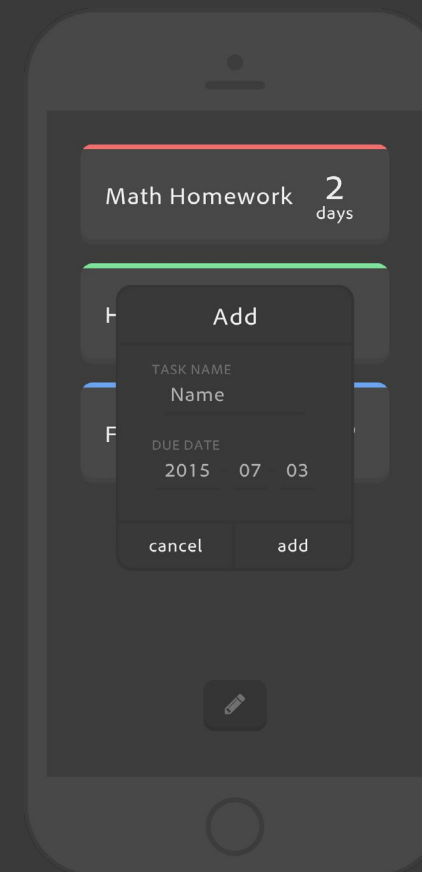

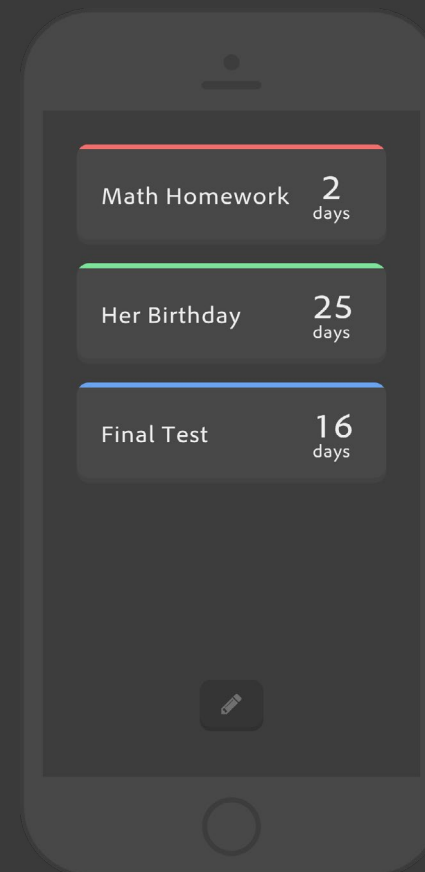

Other Apps

These apps are extremely simple. Some of them are just for fun.

Due

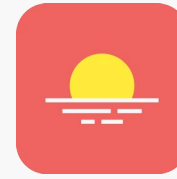

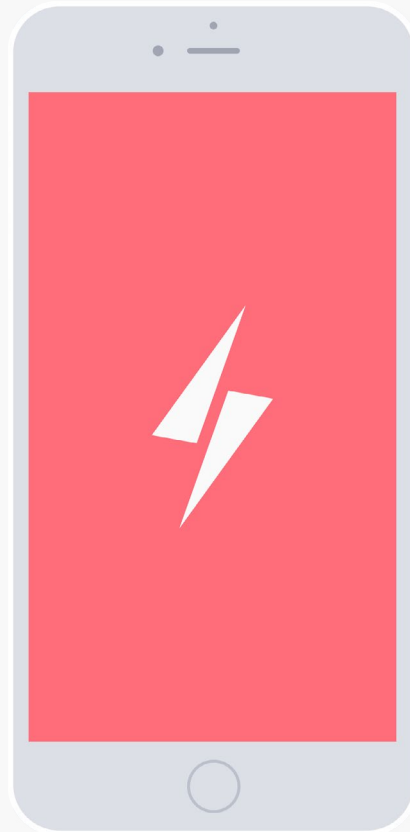

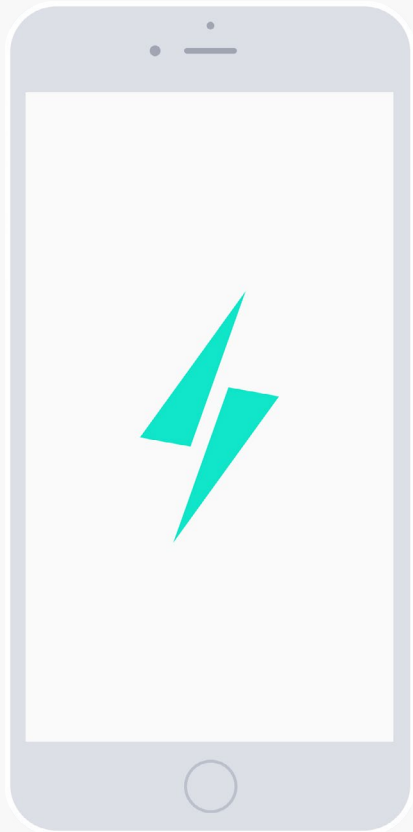

Manage your tasks' deadlines.

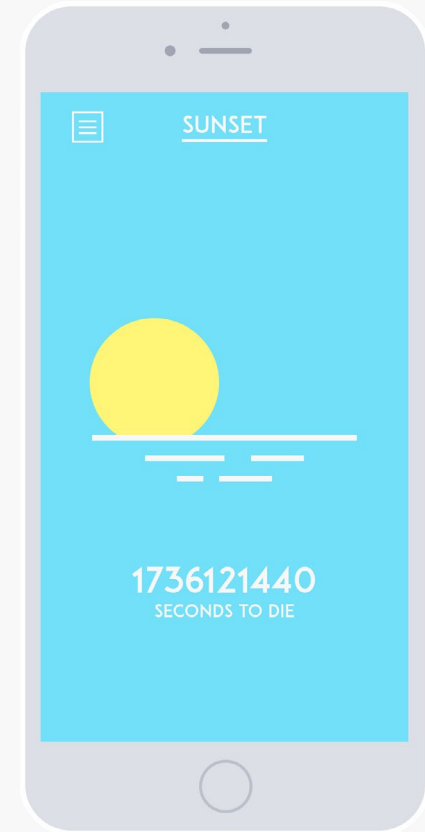

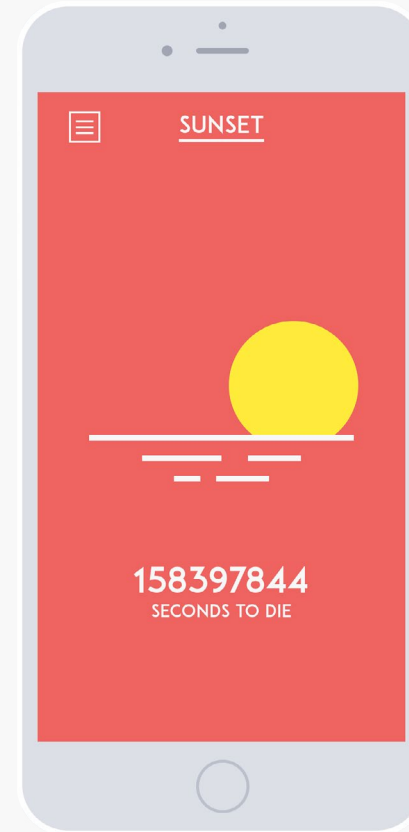

Lightening

Take lightening close to your eyes and stay awake.

Sunset

Tells you how many seconds you still have.

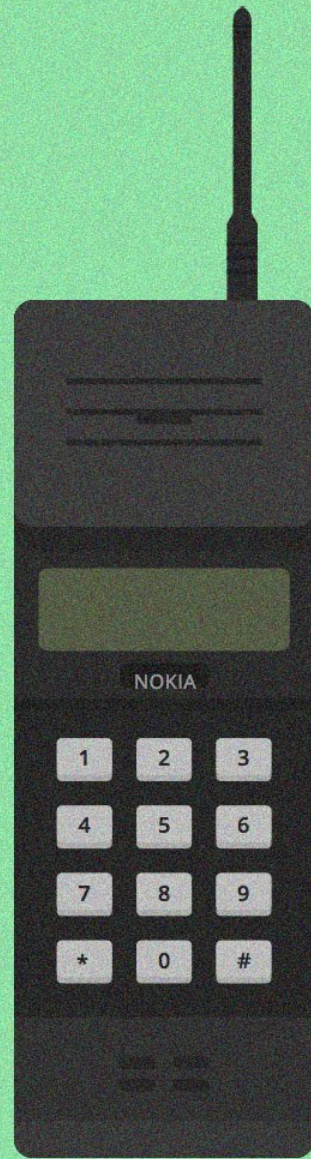

Illustrations

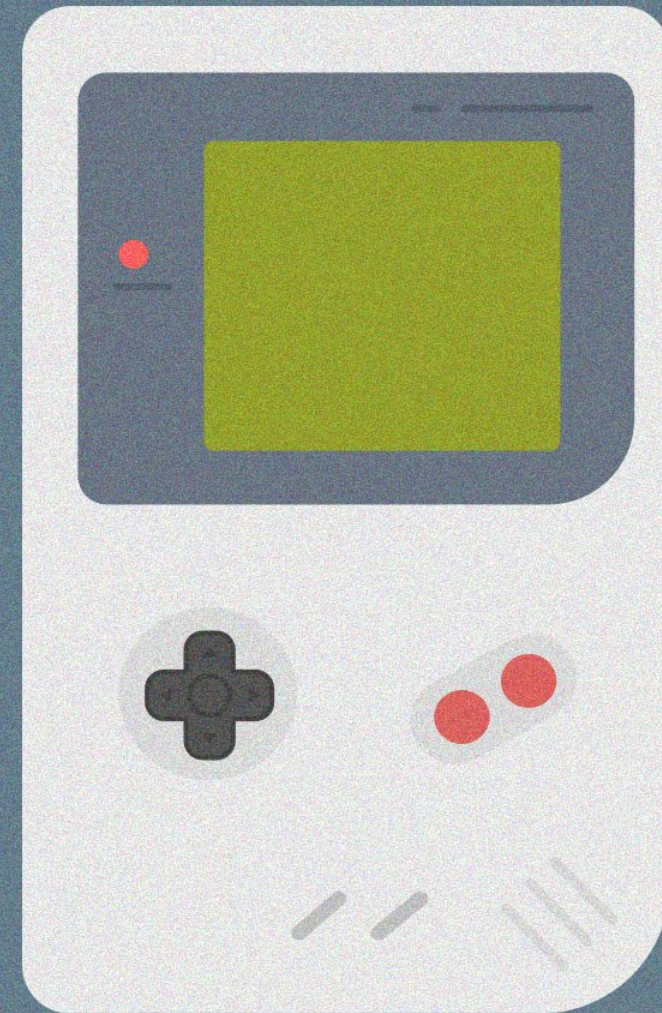

My illustration skills are very basic, but I really enjoy it and I'm eager to improve.

Self Portrait

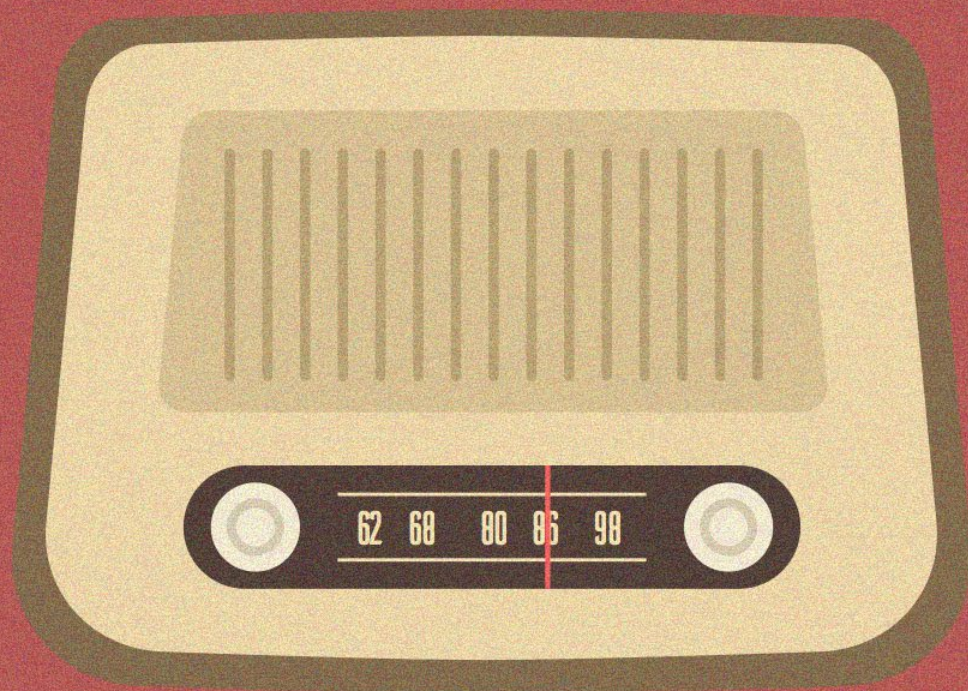

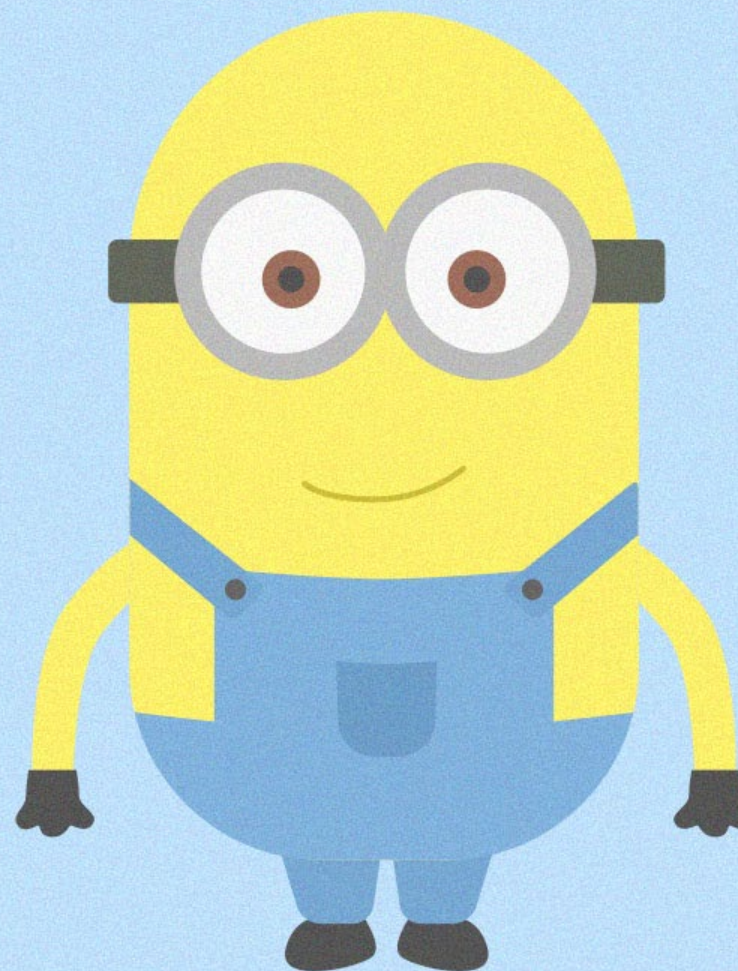

Nokia Cityman

Game Boy

VINTAGE RADIO

Bob

On the Web
